

Post Graduate Planning Announcements

April 27, 2006

INTERNSHIPS

BioScale Summer Internship

BioScale, a relatively new local biosciences startup, is looking for an EE or ME student to help develop bio-instruments and consumables this summer. For contact information and more details, see the [full position description](#).

Dexter Science and Technology Camp Counselor

This summer science camp in Brookline is looking for a student to work as an astronomy teacher and camp counselor from June 19 to August 11. For contact information and more details, see the [full position description](#).

Acclaim Web Services Position

Acclaim, Inc. is a start-up seeking talented developers to design and implement a first generation email, contact management and calendaring application. They are seeking candidates who are proficient or are willing to learn the PHP programming language and have knowledge of implementing open source applications such as email and ad servers. This is an opportunity to help create a new product from the ground floor.

Acclaim is an affinity web services company that will initially partner with alumni associations of colleges and universities to offer their members free email and calendaring, sharing a portion of advertising and sponsorship revenue with the alumni associations. Acclaim was co-founded by Josh Brand, an early employee and Director of eStrategy at Mainspring, Inc., a venture-backed technology consulting firm that was purchased by IBM Global Services in 2001. He went on to launch a successful eLearning business within an established training firm and has been instrumental in several other start-ups. In addition to his entrepreneurial activity, Josh is currently employed by Babson College's School of Executive Education.

For more information on this position, email [Leslie Larocca](#).

Nortel Programming Internship

Adnan Onart at Nortel Networks is looking for a summer intern experienced in Java and WEB programming. Contact [Allen Downey](#) if you're interested.

Axcelis Internships

Axcelis Technologies in Beverly, MA is looking for two summer interns, one in Software Development and one in Light Source Development. Job descriptions are available [here](#). Please email resumes to [Sarah Barrett](#) if interested and cc: [Leslie Larocca](#).
